Election of Magisterial

District Committeemen.

To the members of the Stemming District Tobacco Association.

You are called to meet at your usual places of voting on Saturday, July 22, 1911, for the purpose of electing a committee-man to represent your district on the county board. The election will be held at 1 o'clock by your present committeeman. Every person that has pooled his 1911 crop with this association will be entitled to a vote, and I urge you to come out and vote for the best man in your precinct for the place. Be sure he is a Stemming District man.

The committeemen elected at these elections will meet in Marion on the first Saturday in August and choose one of their number to represent Crittenden county on the District board at Henderson.

T. M. DEAN, Chm.

DICK TURPIN, UP TO DATE, SHOWS OKLAHOMAN'S TRICK

Thief Picks the Pocket of a Spectator at Balloon Ascension and as Air Craft Leaves the Ground, Leaps into the Basket.

Sayre, Okla., July 1.—A pick-pocket, closely pursued by the town marshal, leaped into the basket of a balloon near here today as the air craft was leaving the ground and sailed away to safety.

The balloon had been filled with gas and the aeronaut was ready to start when the marshal saw a pick-pocket take a purse out of the pocket of one of the spectators.

The marshal attempted to catch the thief, who leaped into the basket of the balloon just as it cleared the earth.

At a height of several hundred feet the thief drew a revolver and ordered the aeronaut to make a slow descent, and as the balloon approached the ground he jumped out and made his escape, several miles from where the robbery had occurred.

BROTHER MCGEE'S CEREMONY

"In the Garden of Eden, man's first dwelling place, The first wedding occurred—God's best gift to our race. And His word has gone forth that man can't live alone, He must have a fair helpmate, one truly his own."

"Now, therefore, I would ask you, does any one know Why this man—who's none else than the hod-wielding Joe— Should not wed this young lady, the fair Imogene, Who's so useful and apt on the writing machine?"

"I do not object," said the Bald-headed Man, "For altho' it at first somewhat altered my plan, Yet in truth I must say that the Hard-Pounding Green Gives a very good punch to a writing machine."

"I do not object," said the Man-At-The-Top, "Altho' now for two days has our work had to stop. We can make business hum tho' tomorrow, if Turk Will then shoulder his hod and go on with his work."

"I do not object," said the Hard-Pounding Green, "Altho' I, too, once tho't that I loved Imogene; But, to tell you the truth, 'twas a concocted plan Gotten up betwixt me and the Bald-Headed Man!"

"Ah, that's good of you, brethren," said Brother McGee. "Could there be better men than these gentlemen three?— The Hard-Pounding Green and the Bald-Headed Man, And the Man-At-The-Top—beat that trio who can!"

"And now, Joseph Turk, you who once hopp'd the clods, But who now is engaged in the wielding of hods, Do you take this young lady to be your dear wife? Will you cherish and love her the rest of your life?"

"Very good; and do you, the fair Imogene Moss, You who left your machine and your bald headed boss, Do you take this young man for your husband thro' life? Will you stick to him too, 'mid commotion and strife?"

"Ah, again very good; now let each bow his head—, And you brethren, too—while these last words are said; They will be but a few, for I've finished my work; You are husband and wife—Joe and Imogene Turk!"

"In conclusion, I'll say just a word to you, Turk. Be faithful and true, and go on with your work; Your dear wife and the pitfalls of life stand between, As you stood betwixt her and the writing machine!"

"And in turn I'll just say to you, Imogene Turk, Deal gently with Joe and your duty ne'er shirk; Just cast off all besetments of life, Imogene, As you did, in good shape too, the Hard-Pounding Green!"

"I wish you much joy," said the Bald-Headed Man; "May you be of one mind and have only one plan; May life's path be as bright and as smooth, be it said, As obstructionless, too, as the top of my head!"

"I wish you much joy," said the Man-At-The-Top; "May your sorrows be naught and your joys never stop; May your lives be cemented by love till you'll stick, Each one to the other, like mortar and brick!"

"I wish you much joy," said the Hard-Pounding Green; "May your lives run as smooth as a writing machine; May you cling to each other up life's rugged hill, Like the Bald-Headed Man to a five-dollar bill!"

IMPORTANT NOTICE TO TEACHERS, PATRONS AND PUPILS

Schools all Open Same Day, August 7th.

Those who are interested in the schools of the county I wish to say that at a meeting of the trustees from all over the county, together with the board of education, it was agreed and voted unanimously, that all of the schools of the county should begin on the same day and that day was fixed for the first Monday in August, which is the 7th day. The reason for this uniformity can readily be seen. The state has adopted a regularly arranged course of study to be used throughout the state. This course of study is gotten up and

recommended by Supt. Coats, our rural school supervisor for the state. Our institute will convene on Monday, July 31st, and continue during the first week in August allowing the teachers to go right out of the institute into their schools with all their new methods and ideas fresh in their minds. We will spend a whole day or as much time as is necessary discussing the course of study and the daily program that all may become familiar with the work. This will prepare the teacher for work in unison. Uniformity gives force and strength to all business undertakings and is not the education and development of our children the most important business of our lives?

If you will think for one minute you will see where the early school will pay when we have

Marion's Second United States Senator.

We take off our hats to U. S. Senator James. Altho not yet elected his nomination means as much, and Marion without regard to sect or creed & Crittenden county regardless of political affiliation will do honor to our most distinguished citizen.

EARTHQUAKE SHOCKS FELT IN CALIFORNIA

Rapid Exodus From Restaurants, Shops and Large Buildings.

San Francisco, July 1.—Two earthquake shocks, the heaviest since the big earthquake of 1906, separated by a few seconds, jarred the central portion of California and Western Nevada today. Only trivial damage has been reported from any section, but a panic seized upon the crowds in stores and restaurants and a pell-mell exodus from large buildings followed.

only a six months' school year. Three-fourths of the school enrollment in the rural schools is of children whose ages are from six to thirteen, just the right age to be taught easily and correctly and not old enough to be of much service in the work of the home. They can attend school easily and comfortably while the weather is warm but when the weather gets bad and the roads get muddy these children can not attend at all especially during the latter part of January and February. I am talking from experience and observation. I taught in the rural schools for seventeen years and had my schools to begin anywhere from July 1st to November 1st. The early schools were always better attended, and, too, the teachers' annual reports will show these facts. I will be glad to show them to any one wishing to have this proven if they will come into my office. Of course, we have sympathy for the "big boys" that have to work in the tobacco patch, but the only way to remedy this is to send him to school before he is large enough to go to the tobacco patch, besides the "big boy" does not constitute a majority of our school children and it is the greater number that we are trying to benefit.

The reasons for having the schools to begin all on the same day are many. We have an adopted course and a daily program, then while the seventh grade at Shady Grove is reciting arithmetic the seventh grade at Tolu is, also, reciting arithmetic and so on all over the county. If a family moves from Dist. No. 10 in Div. No. 2, to Dist. No. 3 in Div. No. 4 the children will know where their lessons will be when they start to their new districts. When the superintendent wishes to supervise the reading lessons in a certain district he knows just when to go to that school.

The schools of our much-boasted-of and dearly beloved Kentucky are far behind those of her

sister states, but there is much being done for the improvement of our schools, especially the rural schools. Let's do our part: Help and not hinder. Our most vital interests, we know, are our children. Let's live and work for them.

If you will attend the institute some time during the first week in August you will see how much interest the teachers and other school people of the county are manifesting in the welfare of our children.

If you will look in these columns next week you may see some more school talk if our good editor cares to publish it.

Yours very truly,
E. JEFFREY TRAVIS,
Superintendent.

GIANT ENGINE IN SERVICE ON I. C.

Louisville, July 5.—At noon today engine 1039 of the Illinois Central railroad, the largest and fastest engine that ever steamed up in a local shed, pulled out for its maiden run to Fulton, Ky. The monster machine has just been completed by the Schenectady Locomotive Works at a cost of \$27,000 and is the first of a troupe of six that the Illinois Central will use to handle the new heavy steel car trains that are to be put on in the near future.

PIERCE BATTLE.

Mrs. Smith Aids in Killing Monster Rattle Snake.

Eddyville Ky., June 30.—During a visit to her niece, Mr. and Mrs. F. M. Degaffenreid the past

few weeks Mrs. Georgia Smith, one of the best known and most highly respected old ladies of Eddyville, had quite an experience in a battle in the Degaffenreid home with a large rattlesnake. Some member of the family first found a garter snake and when Mr. Degaffenreid was called in to kill it, he discovered a large rattler under the bed. He reached after him with the garden rake and after pulling him out, pressed down on his snakeship while the women of the household, by turns pounded his head to a frazzle. Ten rattles and a button were cut from his tail, and in size was nearly as large as they grow. Mrs. Smith is very proud of her battle with the snake.
